

2019

Pre-Health Sciences Certificate

7 courses, online delivery!

Starts Fall 2019!

The Pre-Health Sciences Certificate prepares students for post-secondary study in health related fields and creates pathways for a number of learners to engage in health related post-secondary programs. This program is designed to give students the opportunity to meet prerequisites for admission to various health related programs while exploring basic concepts related to health care.

- **100% online delivery**
- **Learn health & wellness concepts**
- **Obtain mathematics and biology requirements**
- **Discover health care related careers**
